

## **MK RESIDENTS REFUSE COMPLICITY IN A CRIMINAL WAR**

We, many people from Milton Keynes put on record our condemnation of the US and British aggression against Iraq.

That country is already weakened by 12 years of sanctions in violation of the Geneva Convention and now it faces horrific bombardment.

This is an illegal war, a crime against humanity.

If we were to remain silent we the people too would be complicit in the war crimes perpetrated by our leaders. It is our right and duty to defend international law and the sovereignty of all nations.

We cannot standby and watch the world go up in flames!

Citizens of MK, do not underestimate the effect your stand can have. Whether it is by talking to friends and informing the public, by marching and taking part in all that is being organised against war, or simply lighting a candle for peace, it is time to take action to stop this war and to bring the troops home.

ALL ARE INVITED TO A VIGIL AT MK CENTRAL RAILWAY STATION AT 6.PM ON THE EVENING THAT WAR BREAKS OUT. (Or at 6 the following evening if news breaks after 4pm)

.....
